21 DAY CHALLENGE

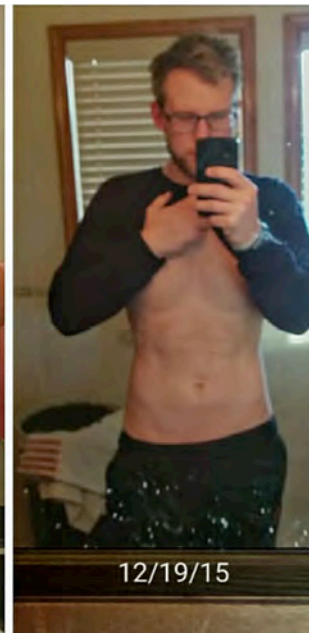

Paul Pruce

January 5

Hey guys, so here is a picture of my before and after from the 21 day challenge. I have a whole log of them from day 1, 8, and 21, all in the different poses to show the difference, but this one really shows the difference in how less bloated my body looks. Overall I lost 7 lbs, and 3 % bf, which for me is huge, because I've always struggled to drop below the 14% bf range, and after the 21 days I was down to 11%. Since I finished, I've put back the 7 lbs, on purpose, by eating the same way you would for day 14-21, but in bigger portions (with a few holiday cheats) but my bf is still at 11%, and I'm just as cut, but now my muscles look even more full. I'll be honest, the results I'm seeing in muscle gain after this are happening 3x faster than if I tried the same current routine, without a cleanse first. My body is obviously absorbing more nutrients. If anyone needs a [testimonial](#), or wants a more in depth one than above, or has questions, feel free to ask me. I think this is good, because it's a little different than a weight loss goal, but more of a muscle gain and feel better goal.

11/30/15

12/19/15

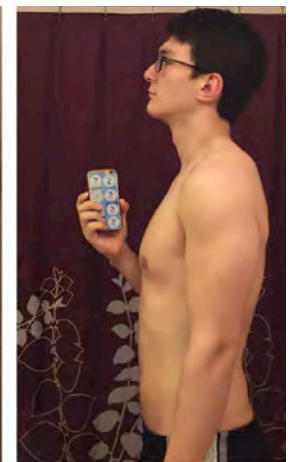

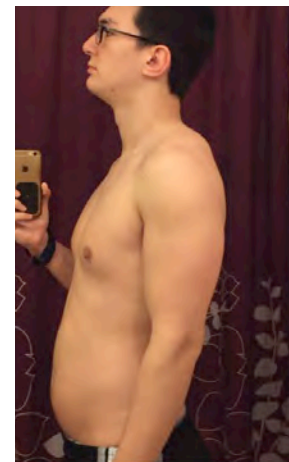

Steve Stajnrjajh

March 21 at 1:41pm

Here's my week by week testimonial for the [#TLS21Day](#) (+ a small bonus Astaxanthin and OPC3 testimonial). Really amazing results! Lost a lot of fat around my stomach/waist line area, actually to the point where I have to get a new belt or make some new holes in my current one! Total weight loss came out to be around 15 pounds! Anyone who's serious or even just semi-serious (which is what I was) that's looking to lose some weight and/or burn some fat, the 21 day is the way to go 🙌👊

Also, prior to the challenge I hadn't worked out in 2+ months but thanks to the use of Astaxanthin and OPC3 (contributed to helping my asthma) prior to and during the challenge, I was able to do cardio workouts without a problem. Like I said before, I have really bad asthma so I was extremely surprised to find that when I was doing cardio workouts for the challenge I felt like I had never stopped!

jenlesueur Incredible result!! Watching his transformation was inspiring :)
@tlsweightloss

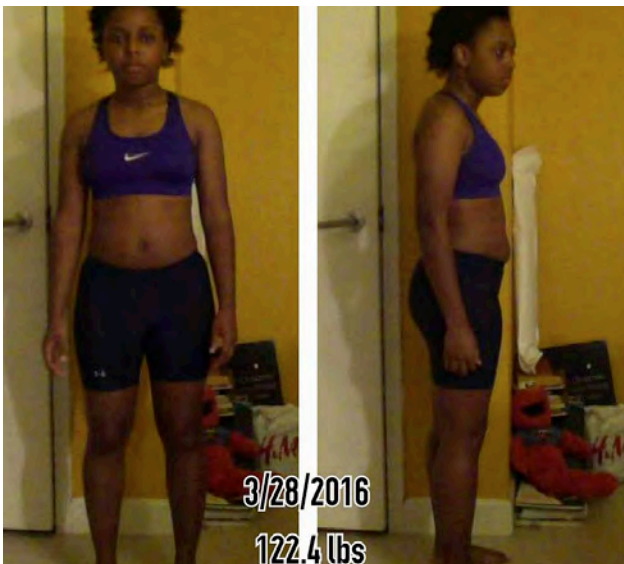

rburg_fuel_fit Awesome job! 🙌🏻

gatanegra50 Congrats!!!! I lost 26 pds. I still have to take my after pic to post it but I did it!!! I've never tried a diet before and was so happy this one worked when I did try!!! The best part is the weight is staying off!!!! 🌟

tlsweightloss @gatanegra50 that's wonderful to hear! Send us your before and after photos to tls@marketamerica.com

~Testomonal Alert~

Two months ago (before I started my business) I weighed 285 pounds. That is the biggest I have ever been. Before starting my business, I tried many remedies to lose weight, such as Fit tea and other weight loss pills. I kept trying different products because I ended up gaining weight instead of losing it. I ended up bagging a large amount of clothes that no longer fit into a bag that I was going to donate. When I started my business, I began taking mocha every day because of how good it tasted. I made it in the morning mixed with skim milk or mixed it in my oatmeal. I also started taking digestive enzymes three times a day. Two months later and 50 pounds lighter, I find myself being able to wear clothes that I haven't worn in years. It's such a huge relief finally to see some progress in the health department.

285 pounds (Left) - 235 (Right) = 50 pounds lost on mocha + digestsives

Wow day 5 of the cleanse guys!!! We are over half way done 😊. How's everyone feeling?! I can't believe how much energy I have and even better I'm down 7.4 lbs on the 4th weigh in. I'm feeling great!

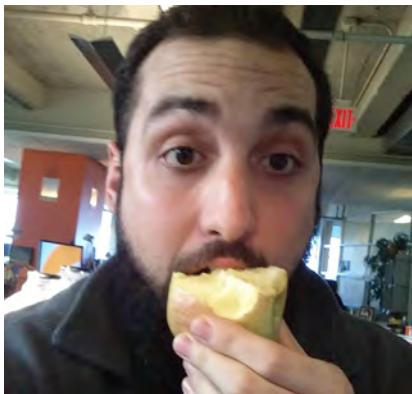

OPC-3

ALLERGIES
INFLAMMATION
FREE RADICALS
ANTIOXIDANT

I have a wonderful testimonial to share! So this guy right here is Mitch and he has Cp (Cerebral Palsy) and lymphedema. He was diagnosed w/ lymphedema in 2006 and because it had gotten worse he had to start using this wheelchair. His doctors also put him on an anti-inflammatory drug. Mitch has been taking OPC3 since September 4th. Friday while I was @ work Mitch came in excited bc he had a doctors appointment earlier that day and he no longer has to take his anti-inflammatory drug. It gets better! Today while @ work I saw him headed to the gym & we stop to talk and he goes on to say that he went to get his shoes resized. Mitch's shoes size went from a 17 to a size 13 shoe. WOW! I can't wait to see his results from some of our other products. His health-aid also told me how surprised she was about how much the swelling has gone down in his hands & feet. So tomorrow I will be doing a product demo w/ her bc she wants to know more about our products. Thanks guys!

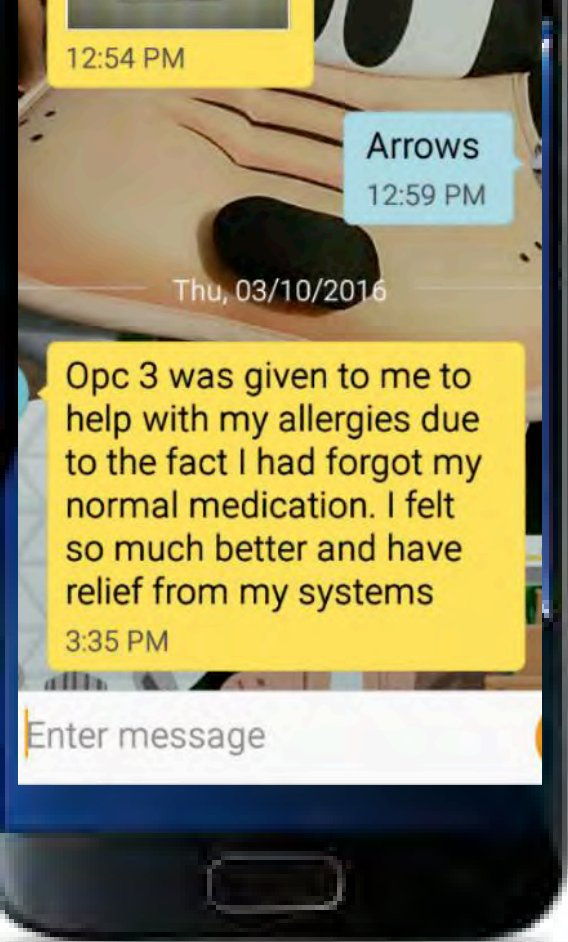

Not exactly a result producing activity but I had to share. This is the first apple I've eaten in about 8 years. I've been taking opc3 for almost 4 weeks now and have tried almost every fruit in my office and haven't had a reaction. I'm so amazed, this product is INCREDIBLE. I forgot how delicious fruit is, can't wait to go to the store and buy my old favorites that I haven't eaten since I was a kid

Spring is here!! Love being outside and seeing wild chives growing!! So grateful I have found a supplement OPC-3 that has helped me with my *seasonal allergies*so can enjoy the outdoors again!!!!

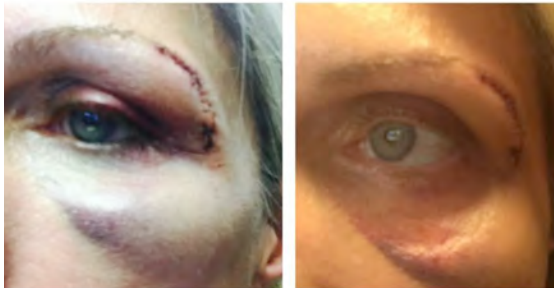

Briana Buschle

August 7 at 2:40pm

Thank you Jay Mcdevitt for letting me share my testimonial the other night. Would like to give everyone a written statement. I was diagnosed with epilepsy at the age of 16. The type of episodes were everything from small tremors to grand mal seizure. When I started my business I preloaded on OPC-3 and then switched to a regulated 2 cap full in the am and then in the pm. During the day I have about 1 to 3 chews. At lunch, I have 2 cap fulls of beauty blend with opc 3. I no longer take my medication for seizures or for allergies. My doctor is working with me and knows what is going on. If anyone would like to know more indepth details dont hesitate to ask 😊

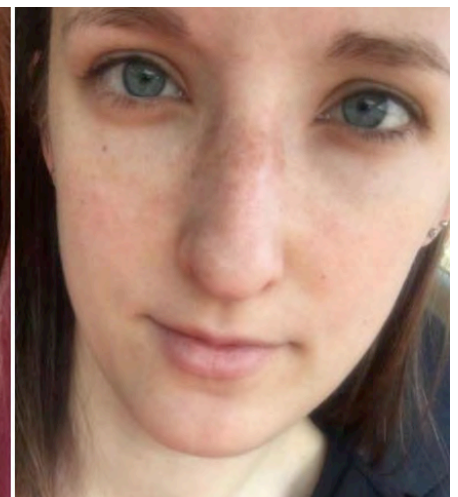

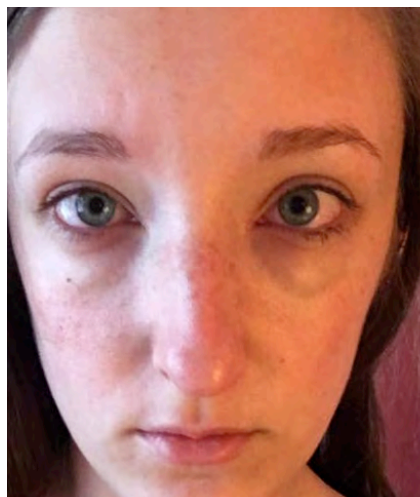

**CONGESTED?
NO MORE!**

Isotonix opc, opc triple serum, bromelain plus. 3capfuls of Bromelain and 2 capfuls of OPC3 three times a day. 3 days later, 1 week, then 2 weeks

**INFLAMMATION?
BE GONE!**

OMEGA-3

FISH OILS - TRIGLYCERIDES - CHOLESTEROL - HEART HEALTH

Ben Zheng

June 1, 2015

Hi all, I just got my blood test today. Please see the amazing result. The biggest difference is that I dumped the other brand fish oil I have been taking for more than a year and started using our own fish oil----- If you have not checked your blood index, please do and you may find a strong enough reason to take our **FISH OIL!!!!!!**

Ben's personal testimonial with Heart Health Essential Omega III Fish Oil with Vitamin E

Measure	05/28/2015	03/12/2015
Triglycerides	104	248

Normal triglycerides means there are less than 150 milligrams per deciliter (mg/dL)

品牌	每粒含 omega-3	每粒含EPA (eicosapentaenoic acid)	每粒含DHA (docosahexaenoic acid)	每粒含其它Omega-3
LOVAZA 处方鱼油 (GSK)	900 mg	465 mg	375 mg	0
Heart Health™ Omega III Fish Oil 心保牌鱼油 (MA)	1500	435 mg	285 mg	240 mg

Kyle Streeper

July 20, 2015

Hey everyone! Just wanted to share a testimonial I just got from a family friend who has been using our Omega 3 Fish Oils for the past month.

"Just wanted to let you know I had great cholesterol results after taking the fish oil for just one month. Total down from 240 to 200. My doctor says I no longer need to take any other medication besides these fish oils because they have been helping so much; which is great because I can't take statins. Thank you for leading me to this brand; I tried a cheaper brand for almost a year with no results and to see these results within a month already is a miracle."

BROMELAIN

Good night directors! I need your help gathering as much **BROMELAIN** as possible soon. So my mom took **bromelain** home when she left last week it is giving incredible results to my aunt who got this terrible infection that is hitting Honduras really hard.

Chikungunya that which is an infection caused by the chikungunya virus, passed to humans by two species of mosquito. The disease features the sudden onset of fever two to four days after exposure. The fever usually lasts two to seven days, while accompanying joint pains typically last weeks or months but sometimes years.

She informed me today she wants at least 4 bottles since my aunt spread the word and many family and friends who have gotten the infection need it to recover from the inflammation and pain. Anyone who has **Bromelain** I would appreciate it if I can borrow it tomorrow since my grandma is still in the US and leaves on Tuesday and I would like to give her as many bottles as I can before she leaves.

POWER OF PINEAPPLES READ TO SEE

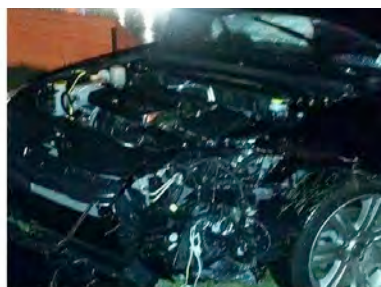

Hi Directors!!! I am more and more impressed every day by how powerful our products are, and how we can help so many people and get them immediate results. I need to thank [Craig Marble](#) for giving me some [Bromelain](#) last night for me to give to my friend Sheron. Her boyfriend, Bilan had an accident where he fell 20 ft and almost broke his spine. I was going to sit with him to show him the business but we weren't able to because he had the accident the night before and he was in the hospital the day we scheduled the meeting. I will sit with his girlfriend Sheron this Wednesday, but when I called her during CW on Saturday she told me Bilan wanted to try a product since he was in a lot of pain. I gave her [Bromelain](#) last night and she sent me this text just now.

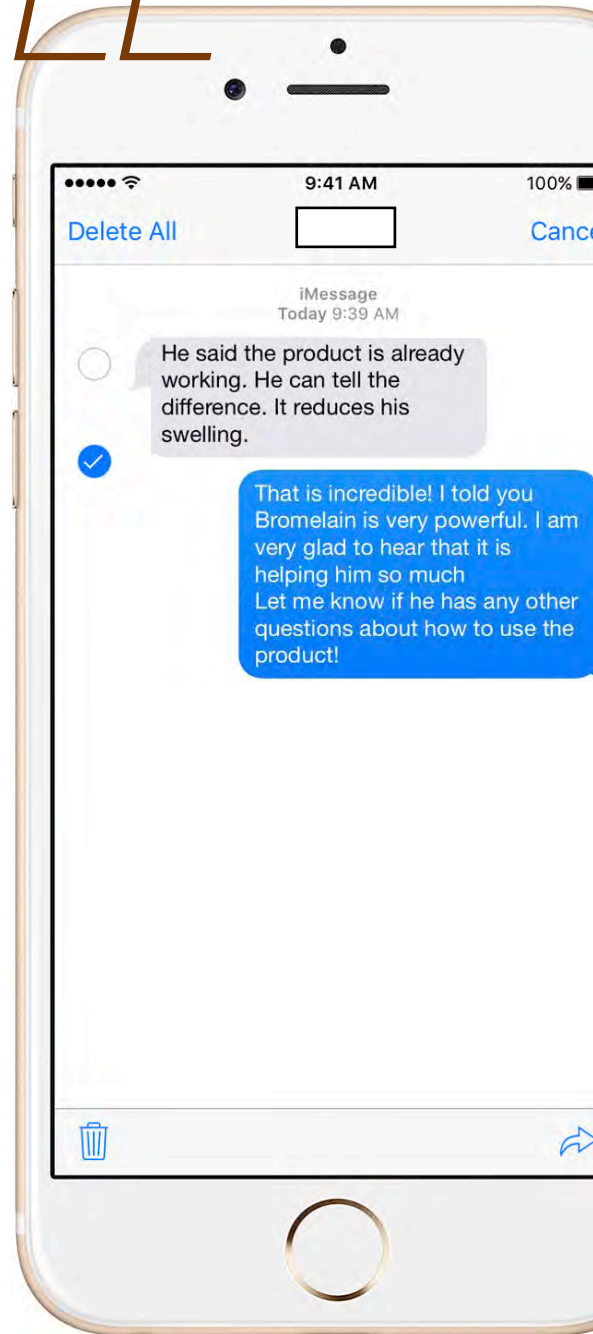

Chelsy Paulose

November 8, 2015

Good morning and happy sunday! Just a testimonial from my dad. Around noon yesterday my dad was at gun point and was asked to give the gunman money. With the fear that he would still shoot even if he did give money, my dad decided to fight him. Thankfully no shots were fired but my dad was beaten up pretty bad. He could barely walk with his knees swollen up and a few bruises. I gave him [opc-3](#) and [bromelain](#) and before he went to bed, gave him calcium and magnesium to help him get sleep. He woke up this morning with barely any pain and had a full night of rest. Two lessons from this: our products work! Second, please be careful wherever you are. This happened to my dad at broad daylight. Be conscious of your surroundings and be safe!

I was involved in a head on car collision in June 2015 resulting in me blacking out and being sent to the hospital. I arrived at the hospital and took an mri. The doctors were astounded at my calcium levels stating that it may have been much worse. Although no broken bones I had severe back spasms and was suffering from a strained back . Instead of taking prescribed pain medication I took bromelain instead and had a rather speedy recover expected to be out for 6 weeks i seen improvement in 4. Highly recommend this product for pain

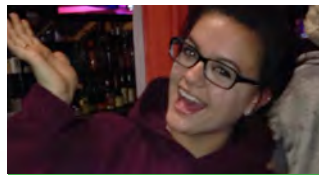

JOINTS

John Griffin

12/1

When I started the joint and flexibility kit I only used the curcumin extreme and the prime joint. After running my usual 3-4 miles, I would have a stabbing pain in my knee going up and down stairs afterwards for 2-3 days. After taking the prime joint and curcumin after 3.5 weeks not only did I not have initial warmup pains in my Achilles and anterior tibialis, but I was able to run farther with ease, all the way up to 6 miles and farther if I wanted. Afterwards I didn't have my usual swelling or pain in my knee. Plus now I could squat for long periods of time without pain. Amazing stuff, really able to enjoy being more active without the fear of pain.

CARLY WENDERLICH
MARKETING ASSISTANT

Joint support not only tastes like candy but works like magic! played sports my whole life and had a few surgeries which evolved into debilitating tendinitis after long shifts waitressing. Sometimes so bad I would not even be able to lift drinks or trays. I started using joint support as a daily regiment along with a few other Isotonix products in the morning. The flare ups do not come nearly as often anymore and when they do they are not as severe. Joint support is awesome!

VAL MERTIN
DELCO, HOSPITALITY

When I was 16 years old, I injured my back/ pelvis. During physical therapy, I started having pain and discomfort with my knees due to the exercises I was assigned. After physical therapy ended, my knee pain stuck around and got worse. My knees would hurt most days and I could feel them clicking and moving when I walked, stairs were the worst and it made me feel like my legs were weak! I worked in a restaurant and also participated in my school's marching band, both of which became challenging. Days when it rained or the barometric pressure went up were twice as bad. My friend, Dritan recommended I try Isotonix Prime Joint Support Formula. The first day I took it, I felt minor relief, and for 3 months, I combined it in a regimen with Heart Health Omega 3 Fish Oil and Curcumin Extreme. During those 3 months, the pain and discomfort went away and 3 years later I still take and love these products every day and have faith that I'll never have to worry about knee pain again!

Now here's why I am now a firm believer in this product. I've been using Joint Support Formula, Curcumin Extreme and Omega III fish oils for just over a week now and prior to use of these products I had extreme joint pain in my pinky finger and it was increasingly getting worse, so I had plans on heading to the doctor to get it checked out. I no longer need to do so because not only is the pain gone but I feel stronger in a lot of my bodyweight workouts that require high tension on my joints such as my fingers. I didn't think it would work that quickly at all but I can say that I am highly impressed and can't wait to try some other products out and share them with my clients."

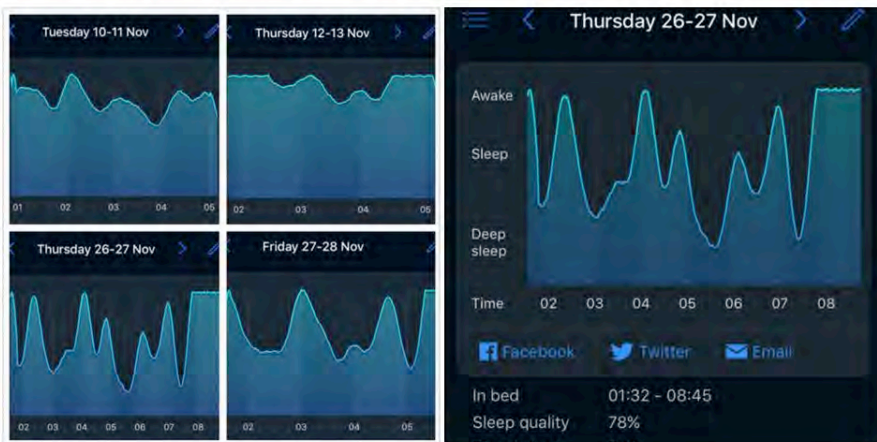

I asked Craig if it would be okay to have one of his last remaining Curcumin and thankfully he said yes. I've taken Curcumin a few times but never really noticed a positive effect of taking it until now. I don't really know when I fell asleep last night but let's just say I was able to get 3 hours of sleep. Thanks to the power of Curcumin extreme being able to detox our livers and provide strong antioxidant-like effects I was able to sleep normally as if I got 5-6 hours of rest. I feel great this morning, alert, relaxed, and as if my Rem cycles were completed as normal.

I would recommend this to anyone who's looking for antioxidant like supplements or products. Moreover, anyone who has problems sleeping at night should start taking Curcumin regularly along with Dreamz (that testimonial is still in progress) because it allows your body to feel energized and in an overall state of well being. I'm definitely going to order this product on a regular basis and o know for a fact that my testimonials will continue to get even better the more often I take Curcumin.

ANTHONY MCDONNELL:
DREXEL, ROTC & STUDENT

I've been taking Curcumin regularly for a week now, and have seen a lot of improvement in my quality of sleep! I wake up feeling more refreshed than when I get 8-10 hours of sleep normally, even when I only sleep for a few hours. I track my sleep on a sleep app, and these are my results. The top two graphs show the quality of sleep I was getting a couple of weeks ago. The deeper the graph dips, the deeper the sleep. The bottom two graphs show the sleep I've gotten this week since starting a Curcumin regimen. The results speak for themselves! I don't even need MochaTonix in the morning to get me started now, but it's still my favorite part of my morning.

I'm usually not the one to tell everyone about products I use, but this one I found is so amazing I need to tell everyone about it!!!! I have tried every single product to try to make my hair grow such as hairinfinity, hair skin & nails, and plain biotin and NONE of them worked for me or made me breakout and all of them came in huge pill form which I HATE. My hair feels like it takes a year to grow 2 inches and I HATE it. Amanda & Jared have recommended this product to me and I just started using it 1.5 weeks ago and already have seen a HUGE difference -- it's all isotonix OPC-3 beauty blend. The best thing about it is it comes in powder form that you put into water and it actually taste delish!!!! This is the first product that I have found that actually works and makes my hair grow fast! Along with helping your hair, it helps your nails and your acne / face. I have seen my nails grow fast and my face become so clear!!! My hair is now so healthy and growing along with becoming more volumized. I LOVE THIS PRODUCT!!! If any one is interested please let me know and I can tell you how to get it !!! 😊 attached is one before picture and two after pictures along with the picture of the product!

JENNIE HIMLER
ARCHITECT

Having had nice skin all my life I had no idea how to handle the massive spot acne I started to see when I picked up a full time job 2 years ago. I began to see the increased acne 2 months after working. I tried A LOT, different skin care lines, cleansing, digestive enzymes, and vitamins. All helped clear up the acne but not preventing it from reoccurring. **Complete Greens and Fish Oils were**

the golden combo. My friend Meilinda reccommend I try taking 6 fish oils a day for a week and my friend Andressa said complete greens every day **helped her clear up her skin and drop 12lbs in 2 weeks!** I did just that and in 3 days my acne was clearing, in 1 week it was gone, and..it hasnt come back since. After the week, I kept up with 2 scoops of greens in water daily and 4 fish oils daily.

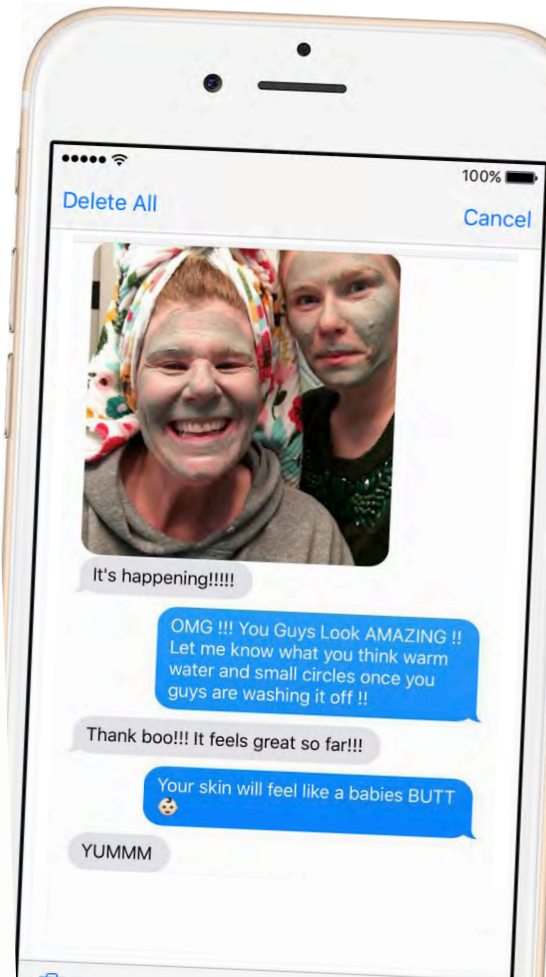

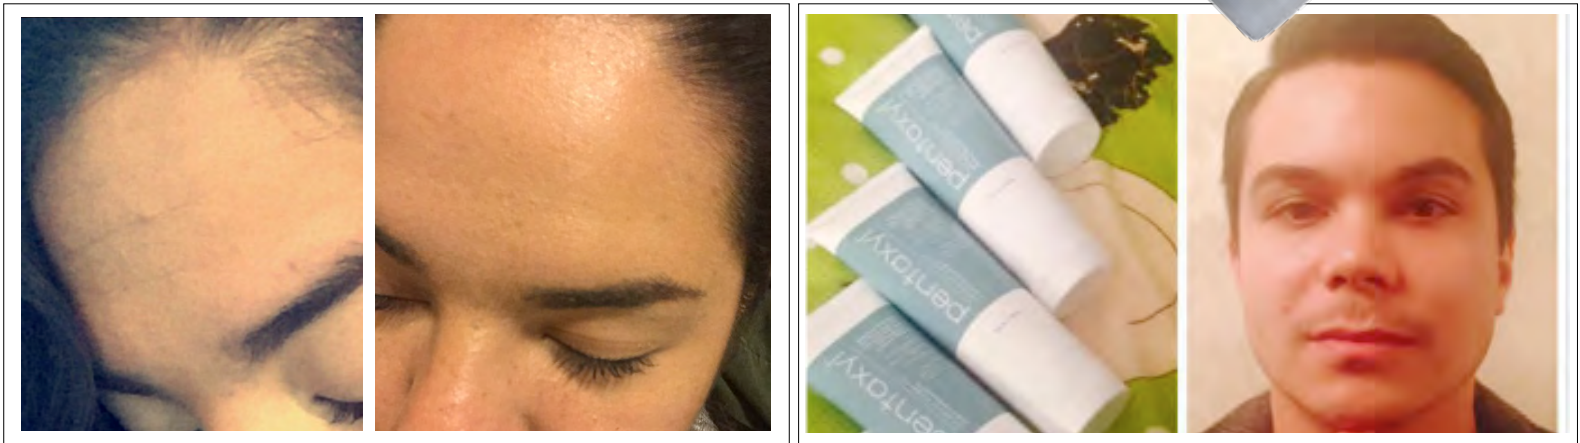

DR. ALEX LEVASHVILI
OPTOMETRIST

Want to give a HUGE shoutout to Alex for being a "beaming" example of product of the product. The positive results she's seen with the skincare are fanastic. With the help from Kevin & Craig suggesting: Skintelligence cleanser & toner, pentaxyl, lumiere volcanic mask & occasional use of aloe juice just look at the results!! In the pic on the left you can see red pigmentation, blemishes & shine due to oil buildup, whereas on the right the skin is literally glowing & absent of blemishes & is restored to balance skin

PENTAXYL & ALOE GEL TESTIMONIAL

STEVE NGUYEN
PHILADELPHIA, PA

August 25, 2015 - I was taking to work and was pretty much going full speed when another cyclist got onto the road wearing headphones. He was completely oblivious of his surroundings and within a second I had to choose between waling out or colliding head on with this guy. I decided to not co lide with him and th's wound is the result.

2015.08.26 Day 2 I began using Ultimate Aloe to keep the wound clean and expedite the healing process

2015.09.14 Week 3 I continued applying Ultimate Aloe gel and vitamin e (to keep the scab from drying up and breaking off unintentionally) until the scab came off completely on its own. Then I began applying Pentaxyl daily - once in the morning and once at night. Sometimes I would apply again throughout the day depending on whether I hit the gym.

2015.12.06 Month 4 The skin is getting closer to the regular tone and is beginning to smooth out

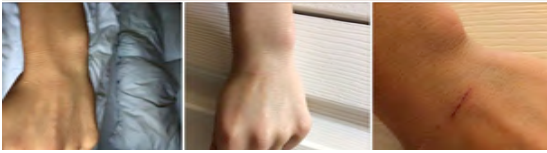

2015.03.01 Week 1 The wound began closing much faster than anticipated

2015.11.15 Month 3 With continued use of Pentaxyl the appearance of the scar has gone down. The texture was still rough.

2016.03.29 Month 7 Almost there!

Carly Wenderlich
August 2 at 4:05pm

Soooooo pretty cool testimonial.. Spent 3 days in the sun which normally would result in something similar to the picture below (not my picture, but mine was actually worse and even spread to my chest) I would get itchy spots after being in the sun that would turn red then turn white and would not get tan for rest of the summer. But so far, haven't gotten any! I showered with Royal spa each night and used aloe gel after each sun exposure and drank aloe throughout the day. Pretty pumped cause those spots are no Bueno. 🍌

ADRIENNE VACCARO
ORGANIC PRINCESS

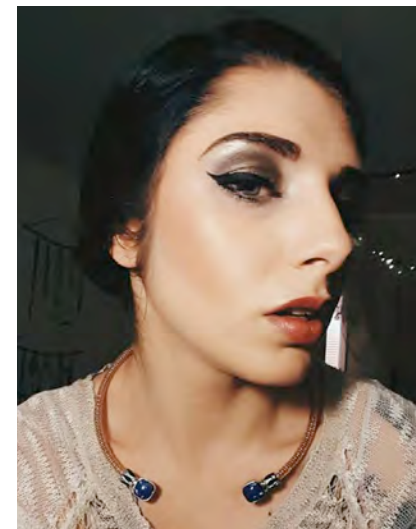

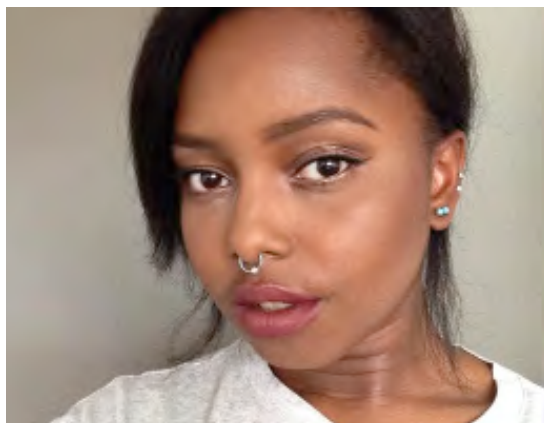

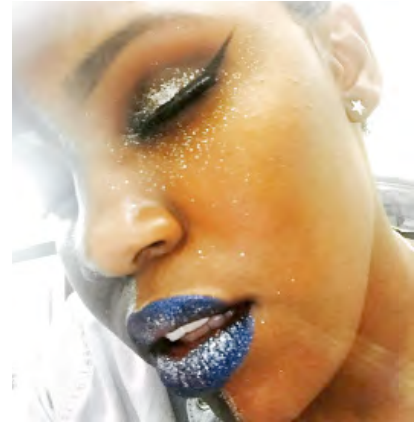

Had cut the top of my wrist in the kitchen (also slightly burning feeling) needless to say was attempting at cooking, haha!
Within a few weeks was able to heal redness, surface cut, discoloration overall scarring (preventative skincare) using 2 products in conjunction
1. OPC-3 Triple Serum
2. Pentaxyl
Overall really pleased with the results. Made sure to take pictures thro the process, please feel free to use!
